Zberhanu93@gmail.com

Mr. Zelalem Berhanu is a senior Lecturer in the Faculty of Mechanical and Industrial Engineering. He received his Master's degree in Industrial engineering with specialization in Industrial Engineering from Addis Ababa University Institute of Technology in 2020 and his BSc. In Industrial Engineering from the Bahir Dar University in 2012. His career began as a quality inspection officer at ministry of Trade and Industry (2012-2013). This was followed by roles as a research and system development expert in Bahir Dar Textile Share Company (2014-2015) and then he has joined Bahir Dar Institute of Technology at the end of 2015 as assistance lecturer, where he mentored students and participated in many community services activities.

His higher education study in Industrial Engineering and three years working experience in industries have not only equipped him certain skill, experience and knowledge about Ethiopian National quality Infrastructure but it also helped him to identify his area of interest and academic potency in the field. In this seminar the concept of NQI, importance of NQI in a globalized economy, roles of key institutions in Ethiopia's quality framework, and then the existing challenges that hinder the effectiveness of Ethiopian national quality infrastructure will be discussed.
