

Final Research Report Evaluation Form

Please critically evaluate the research report submitted to the School of Research and Graduate Studies based on the criteria outlined below.

Paper title:

1. Evaluation Criteria

No	Evaluation Criteria	Very Good	Good	Poor
1	Originality; does the research contribute new knowledge? Are the results free of plagiarism?			
2	Are the report abstract and key words adequate and fully represent the whole content?			
3	Is the literature review well organized and cited potential papers?			
4	Are the materials and Methods appropriate and correctly done? Were the experiments conducted correctly? Was proper methodology incorporated in the experiments and did the authors apply the chosen methods?			
5	Are the results discussed very well? Are the results presented in the paper in conformity with the current state of knowledge in the given field?			
6	Do all the objectives (General and Specific) have been met by the research?			
7	Do the conclusions presented in the paper correspond to the results described therein?			
8	Does the paper have a practical, innovative or didactic value?			
9	Are the figures, graphs, tables included in the report clear, captioned, adequate and in conformity with the current state of knowledge in the given field?			
10	Is the layout (font, citation of the references, and organization of the write up) correct? Is the overall write up correct grammatically?			

*A research that lacks originality (if plagiarism is proved), will be automatically rejected, and disciplinary measures will follow.

*According to the research guidelines of School of Research and Graduate Studies of Bahir Dar Institute of Technology, the names of evaluators reviewing research reports are kept secret.

2. Justification of your evaluation if making modifications by Authors is necessary or in the case of rejection

3. Any remarks concerning the required corrections or additions.

4. **Decision**

Accepted with little modification (*if the overall evaluation is very good*)

Accepted with Major modification (*if the overall evaluation is good*)

Rejected; (*if the Overall evaluation is poor, the results are unsatisfactory and needs further work*).

Rejected; (*if the paper and results are plagiarized/copied from other sources. In this case please specifically cite the source where the paper is copied from*).
